na = not applicable.

R&D = research and development.

NOTES: Details may not add to totals because of rounding. Percent change derived from unrounded data. Not all federally sponsored basic research categorized in subfunction 251.

SOURCES: Agencies' submissions to Office of Management and Budget, MAX Schedule C; budget justification documents; and supplemental data obtained from agencies' budget offices.

¹Budget authority adjustment subtracts costs for research facilities, major equipment support, and other non-R&D from total NSF budget authority. ²DOE treats this activity as a budget execution program (i.e., funds are collected from existing appropriations and are not allocated until three quarters into the fiscal year).
